Can you send me a copy of the permit please? Also, if West 61 was issued, can I have a copy of that permit too? What's the latest on BR 5?

I will probably go out West in early spring but sooner if something comes up. My husband is already out there. I am exploring several possibilities right now (with EPA and otherwise). Lots of unknowns that need to be worked out. I'm not sure if they will move someone into my position...

Hi George,

What is that status of this project? I am trying to go through all my stuff and get it organized before I head out to Portlandia.

Thanks,
